

Overall Budget Summary July 16, 2018

The focus of this year's budget process was to conservatively estimate revenues while carefully expanding capital purchases/projects and adjusting salaries and benefits. We started the budget process in May by developing a budget calendar and distributing budget templates to the department heads for their use in submitting their budget requests. Department heads were given until June 1st to submit their requests to the Finance Director. Input was also gathered from outside sources such as MEAG and MGAG. The Finance Director compiled the requests. The City Manager and the Finance Director met with each department head to determine priorities for their respective departments. Then the City Manager worked with Finance to develop the budget document presented here. The City Manager provided guidance as to funding priorities in the various departmental and fund budgets.

Changes to the budget document:

The budget document itself contains some significant structural changes which affect how the budget looks and feels. These changes were made to streamline the budget document, to improve readability and usability of the document and to align with the Department of Community Affairs (DCA) local government chart of accounts.

The General Fund Revenue budget has a reduced number of subcategories. The same line items appear but the groupings and subtotals have changed. Prior years consisted of 24 subcategories while the current year has only the following eight (8) major categories:

- Taxes
- Licenses & Permits
- Intergovernmental Revenues
- Charges for Services
- Fines & Forfeitures
- Investment Income
- Contributions & Donations
- Miscellaneous
- Other Financing Sources

Many of the previous subcategories were such small amounts that it didn't make a lot of sense to have them in a category of their own. The same revenue categories are used throughout all of the funds but it is less apparent because the enterprise funds derive their revenue primarily from charges for services.

The Expenditure/expense budgets also have fewer categories and subtotals. Each fund uses the following five (5) categories:

- Personnel
- Operating Expenses
- Capital Outlay
- Debt Service
- Financing Uses

Once again, many of the previous subcategories were such small amounts that it didn't make sense to have them separated into a category of their own.

The third major change was the elimination of the Nondepartmental budget. This department does not comply with the DCA chart of accounts. A new Economic Development budget was created and the line items previously presented in Nondepartmental were moved here. The Main Street program was also moved from the City Manager's budget into the Economic Development budget. The one item in the Nondepartmental budget that doesn't quite fit into Economic Development is the Animal Control budget. Because that contract is likely to change during the fiscal year, we left it with the other Nondepartmental payments until it is decided how the animal control service will be provided. Then we can determine where it actually needs to be presented in the budget.

A major change was also made in the Water and Sewer Fund. Previous budgets presented four (4) separate departments; two (2) for Water and two (2) for Sewer. The current budget combines the four (4) into one (1) Water Department and one (1) Sewer Department for a total of two departments in the Water and Sewer fund.

Finally, the Telecom Fund budget was eliminated entirely. With the sale of the cable/telecom system to SGGSA, all of the transactions generated in the Telecom fund pass through to SGGSA so they no longer generate revenues or expenses for the City. These transactions are related to the billing the City still does on behalf of SGGSA for cable, internet and telephone service. The transactions will ultimately be transferred to the CNS fund and the Telecom Fund will be shut down at the end of FYE 2018.

Operational changes to the budgets:

The next changes are operational in nature and may affect the way the city does business.

Revenues:

The 2012 SPLOST expired on December 31, 2017. These funds were held by the County until the City expended them on the specified projects. The City recognized the revenue when we received the reimbursement from the County. The City will draw the remainder of the 2012 SPLOST prior to the end of the 2017-2018 fiscal year in September. The 2018 SPLOST began on January 1, 2018. Unlike the 2012 SPLOST, the County passes the City's portion to us as they receive it. Therefore, the revenue is recognized when we receive the pass through as opposed to waiting until we are reimbursed. The 2017-2018 SPLOST budget used some of the accumulated 2012 SPLOST funds for a major paving initiative so the upcoming budget shows significantly less SPLOST funding due to the change in revenue recognition.

Two grants were fully expended in 2017-2018. Both the CHIP grant and the Airport DOT/FAA grant have been removed from the budgeted revenues because no additional funds are anticipated in the upcoming fiscal year. These two grants totaled about \$382,000.

Municipal Court fines and jail surcharges have been reduced. The Police Department has changed its focus from traffic enforcement to neighborhood policing. Departmental vacancies have also impacted enforcement initiatives. The jail surcharges have been eliminated because the contract with the Mitchell County Sheriff changed the fee structure. Instead of being retained by the City, the surcharges are now required to be remitted to the Sheriff's office. We no longer count them as a revenue because we are essentially collecting them on behalf of the Sheriff's office.

The budget for merchant processing fees has been eliminated. These fees were proposed in the 2017-18 budget to offset the costs incurred due to accepting credit and debit card payments. The fee was not

implemented at the direction of the previous city manager. The proposed budget offers an alternative solution to the issue and is discussed under the expenses portion of this summary.

The mechanism for funding the pool complex has been changed. The prior year budget anticipated borrowing funds to complete the pool complex. The proposed budget anticipates using SPLOST funds only, accumulating the funds over two fiscal years to fund the project in the 2018-2019 budget year.

Interfund transfers have been revised for a number of reasons. As previously discussed, the Telecom fund (571) has been completely eliminated from the proposed budget. Revenue estimates from SGGSA are significantly less than what was proposed immediately after the sale so transfers from both the Telecom and CNS funds have been reduced. In addition, administrative transfer requirements for the General Fund were revised along with transfers from each of the utility funds based on percentages of revenue for each fund.

Other changes to the General Fund revenues are not necessarily operational changes but attributable to changes in revenue estimates for property taxes, franchise fees, insurance premium taxes and interest revenues. The proposed budget does not anticipate any changes in the millage rate for property taxes nor does it anticipate any changes in the rates for franchise fees or insurance premium taxes. The revenue estimates were revised based solely on trend data.

Expenses:

The City of Camilla operates a partially self-funded group health insurance plan. Since its inception, the City has routinely set aside 100% of the actuarially expected claims to pay any actual claims incurred during the fiscal year. The result of this is a surplus in the Health Insurance Trust account. While it is prudent to continue to set aside funds for claims, we believe that a lower funding rate is a better option at this point. Funding at a lower level will decrease the accumulation of funds but at the same time will allow those funds to be freed up for other City initiatives. After much discussion and analysis, the proposed budget lowers the funding rate from the 100% currently funded down to 70%. The goal is to set the funding rate once per year and reevaluate the claims fund annually during the budget process.

The proposed budget anticipates changes in staffing levels both in the general fund and in the utilities. The Fire Department budget eliminates four (4) part time positions but includes one (1) additional full time firefighter. The Public Works department gives up two (2) vacant positions and Customer service is reduced by one and a half (1.5) meter readers. The Electric fund adds two (2) additional linemen.

The City of Camilla currently spends about \$100,000 per year to process credit and debit card transactions. The proposed budget anticipates changing to a vendor who would charge the customer a fee at the time of the sale. Typically, this is a percentage of the transaction amount. The vendor would collect both the fee and the transaction amount but remit only the net transaction amount to the City. The customer thereby pays for the convenience of using a credit or debit card and the City incurs no cost whatsoever. The Municipal Court already functions this way.

Other expenses were cut in various departments totaling \$21,150 to complete balancing the budget. Some of these expenses include City Manager Candidate search expenses, election expenses, postage, uniform budgets and a few other miscellaneous small dollar changes throughout the departmental budgets.

The salary projections include a three (3) percent cost of living increase for city employees. In addition, the individual pay rates of all the city employees were reviewed and parity raises were proposed for several employees who are currently below market rates for their respective positions.

Capital Outlay

Proposed capital purchases for the General Fund include the following:

-
- Pool Project - \$675,000
- Vehicles & Equipment- Police - \$70,000
- Remodel Firefighter quarters - \$25,000
- Repair/Replace Rear parking pad – Public Safety Bldg - \$25,000
- Vehicles & Equipment – Fire - \$35,000
- Paving – LMIG - \$100,000
- Machinery & Equipment-Public Works - \$44,000
- Excavator – Public Works - \$45,000
- Dump Truck – Public Works - \$65,000
- Finance – Software - \$30,000

Proposed capital expenses for the Water and Sewer Fund are as follows:

- General Sewer Infrastructure - \$50,000
- Vehicles – Pickup truck - \$30,000
- General Water Infrastructure - \$50,000
- Fire hydrant infrastructure - \$10,000

Proposed capital expenses for the Electric Fund are as follows:

- Infrastructure/Transformers - \$62,500
- Infrastructure/System Upgrades - \$140,000
- Infrastructure/LED Lighting Upgrade - \$90,000
- Vehicles – Pickup Truck - \$36,000
- Meters/Meter bases - \$15,000

Proposed capital expenses for the Gas Fund are as follows:

- General Infrastructure - \$15,000
- Vehicles - \$30,000
- Machinery & Equipment - \$6,000

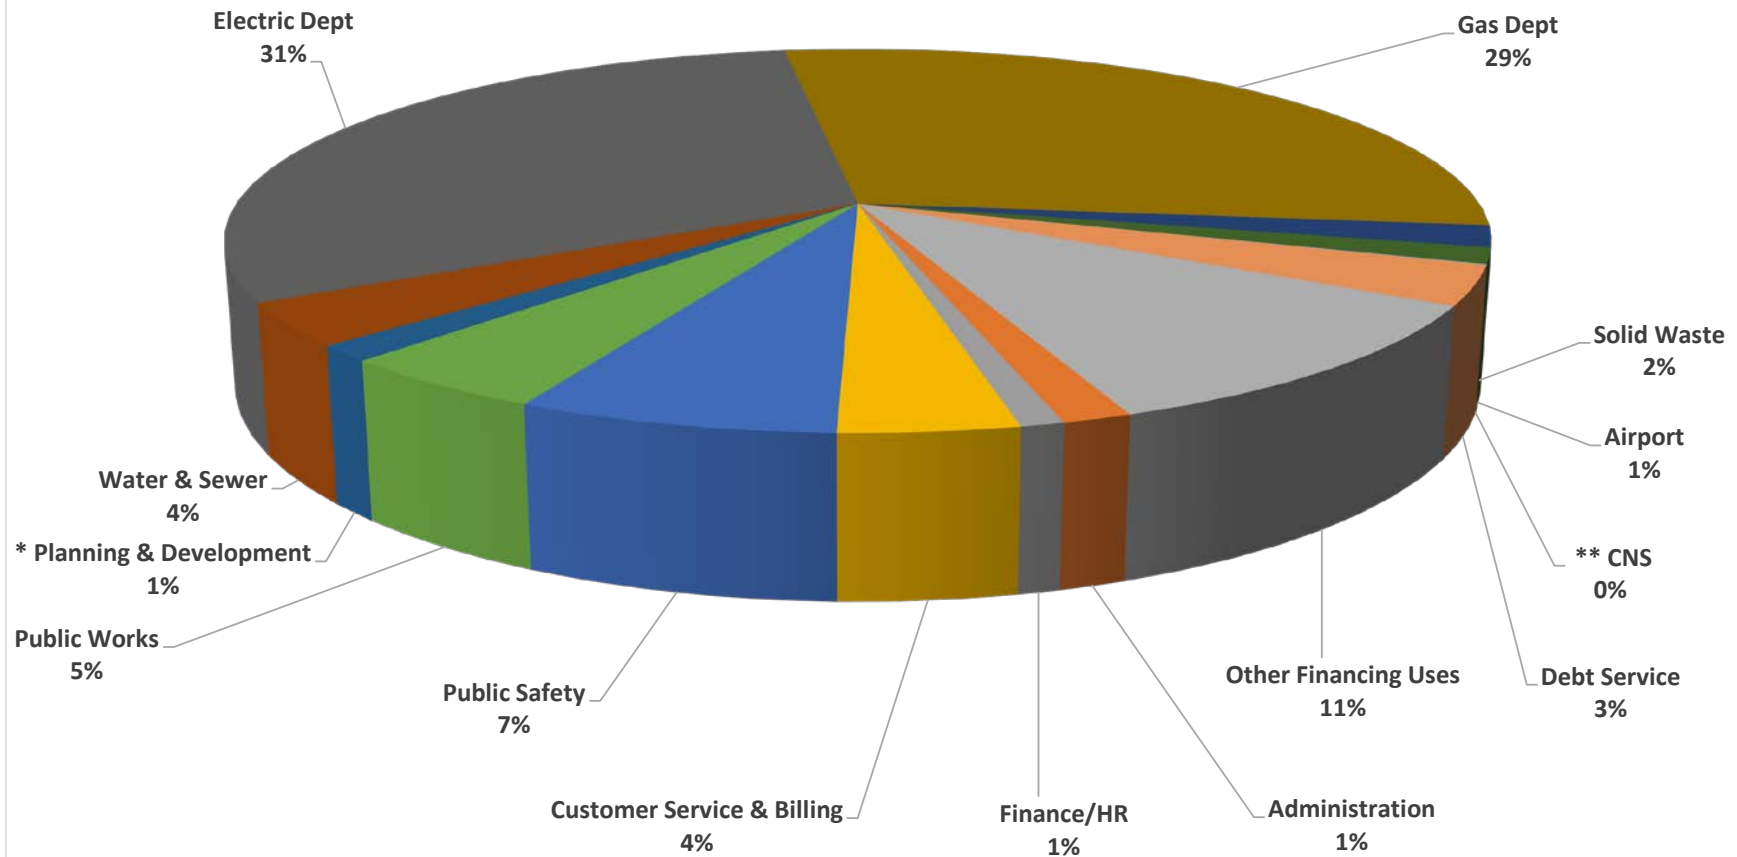

Proposed capital expenses for the Airport Fund are as follows:

- Infrastructure/FAA Grant Project - \$173,300
 - Design Airport Perimeter Fencing
 - Design Terminal Area plan update
 - Design Access Road Relocation
 - City Match Required - \$11,230
 - Federal & State Matching funds available - \$162,100

The chart on the next page shows the city's budget by functional area. It illustrates that the city's utilities constitute the largest portion of the city's activity, with the electric and gas utilities making up about 60% of the city's budget for the year.

City of Camilla
