PUBLIC SERVICE ANNOUNCEMENT

Based on advice and recommendations from the Department of Public Health and the Centers for Disease Control and Prevention (CDC), the City Council of the City of Camilla echoes the recommendation to avoid traditional door-to-door trick-or-treating and Halloween parties this year to remain safe. According to the CDC, other high-risk Halloween activities include: trunk-or-treat events with treats handed out to large groups from trunks of cars, indoor costume parties, indoor haunted houses, hayrides/tractor rides with people who are not in your household, and going to fall festivals outside your community.

Citizens are encouraged to visit the CDC website (www.cdc.gov) for additional information and suggestions for Halloween celebrations during the COVID-19 pandemic.
