NEW YEAR, NEW IMPROVEMENTS

An Update on paving projects around Camilla

CAMILLA, GEORGIA, JANUARY 26 — Approximately \$300,000 has been spent on resurfacing roads in Camilla over the last few weeks. Now the city is making plans to complete additional work needed for Campbell Drive.

During the city's recent efforts to make improvements to the city roads, it was determined Campbell Drive was in need of more than just repaving. The first 150 feet of Campbell Drive will have to be reconstructed before it can be resurfaced. The city will have to hire a separate construction company to make these repairs.

Since Campbell Drive only has one way in and one way out, the city will make the repairs while keeping the road open. It is important to the City of Camilla to keep its infrastructure, such as roads, in top condition for their citizens.

The roads that were recently resurfaced are Fry Place, Henry Street, MacArthur Drive, Williford Drive, West Morgan Street, Dyer Street, Church Street, and Beacon Street.

The City of Camilla, a full service city, offers a wide range of services to its citizens that requires the expertise and talent of a diverse workforce.
